

## BIOCID TP® 2 SD (Equipment, Surfaces and Rooms)

### Environmental

### Bactericidal

### Fungicidal

### Levuricidal

### Viricidal

### Eliminates the Coronavirus

### Suitable for drinking water

### Harmless to skin, eyes and oral mucosa in adequate doses and time periods

In compliance with the following standards:  
EN 13.697; EN 1276; EN 1650; EN 14.476;  
EN 12671; UNE EN ISO 10.993-10 2013.

Biocide based on a liquid solution of pure and stable Dioxygen Chloride. BIOCID TP® 2 SD is authorised for the disinfection and sanitation of surfaces, utensils and facilities in the field of public, professional or private health.

Efficacy certified by ENAC-accredited laboratories.

#### PRINCIPAL FEATURES

- No microbiological resistance to bacteria, viruses, fungi, eggs, larvae, spores, algae and control. Elimination of biofilm and biofouling.
- Does not create waste or by-products.
- No safety period.
- Does not transmit odour or flavour to products coming into contact with usage doses.
- There are no corrosive or negative effects following usage doses.

#### APPLICATION METHODS

Application through automatic or manual dosage: misting, cloth, spray, mop, or any other method able to guarantee contact with the surfaces to be disinfected.

#### Treatments for the disinfection and sanitation of environments, surfaces, and equipment

The usage dose depends on the pathogens and contact time. Sanitation of the entire surface to be treated, emphasising points susceptible to greater contamination.

#### BACTERIA

Escherichia coli; Enterococcus hirae, Salmonella typhimurium, Pseudomonas aeruginosa, Listeria monocytogenes, Staphylococcus aureus, Enterobacter cloacae, Lactobacillus brevis, Salmonella enterica, among others.

#### VIRUSES

General viricide.  
Poliovirus, Adenovirus, Norovirus, Coronavirus.

#### FUNGI AND SPORES

Penicillium expansum, Cladosporium cladosporioides, Saccharomyces cerevisiae, Saccharomyces cerevisiae var. diastaticus, Brettanomyces Dekkera bruxellensis, Candida albicans, Bacillus subtilis, among others.

#### Application:

Industrial disinfection  
Food industry

Sports facilities  
Schools  
Children's play Dining

Dining areas  
Transport vehicles|
